DURRANTS ONLINE MACHINERY AUCTIONS

As farm machinery increases in size and value online auctions provide a practical and effective way of achieving market price for your equipment. Durrants use the i-bidder platform to reach the widest possible number of buyers from across the globe. The online platform enables farmers to sell equipment without it having to leave their own farm.

We are happy, where practical, to come and see you, discuss your equipment, advise on value and setting a reserve price. Items are photographed and a description taken, the details are then uploaded to the i-bidder platform. Potential buyers are then able to contact us and if necessary arrange a viewing. Once the sale is completed the buyers pay direct to Durrants, once we have cleared funds we contact both buyer and seller to confirm the sale and authorise the buyer to collect.

Our clients have found this a practical and cost effective way of disposing of equipment with an established auctioneer handling the whole process.

To find out more about our Machinery auctions or for a free market valuation please contact Richard Prentice on 01379 646602 or email machinery@durrants.com.

Live internet bidding with i-bidder.com

We hold regular timed online machinery sales via i-bidder.com. Please note there is an additional charge of 4% of the hammer price to use this facility and you need to register with i-bidder.com here.
